

Gio Bella !!

“the affordable water ionizer that is not a toy.”

- Like other HTH Water Ionizers, the Gio Bella is made to very high ISO9002 standards.
- 4 user adjusted alkaline settings plus 1 acid
- Simple to install - directly on faucet via diverter
- Unique autocleaning cycle – automatic once per day without annoyance and no buttons for the user to remember to push.
- Digital filter life indication
- Heavy-duty construction – stainless steel fasteners and transformer encased in plastic block.
- Nearly twice the power of most 24V water ionizers with special resistance to overheating on hard water.
- 2-year warranty, supported in the US by factory-trained technicians.

Specifications

Dimensions	14 H x 9.75 W x 5 F to B	Electrical Requirement	110 VAC @ 3amps
Weight	12 lbs dry - shipping	Flow rate	1 GPM
Alkaline Levels	4 user adjusted presets	Acid Levels	1 via top hose, 4 via discharge hose
Max Ionizing Power	43 VDC	Filter	Granulated Activated Carbon with Silver
Filter Life Indication	Digital	Auto-clean	Yes, reverse polarity auto/once per day
Max pH alkaline	9.x – 10.x, depending on source	Min pH Acid	6.x – 3.x, depending on source
Mineral additive	Calcium via built-in percolation	Approvals	CE, ISO 9001, 9002, Korean Govt & Medical Agencies

Questions you should ask about a new water ionizer:

1. Has it been built under a recognizable quality control code?
2. How does the input switch work?
3. Is the transformer embedded in a block of plastic?
4. Are the pH settings fixed, or can they be adjusted to suit the user?
5. Is cleaning automatic without being an annoyance?
6. How well should the ionizer perform with a hard water source?
